Program: Online College Preparatory School

Kaplan College Preparatory School (KCPS) prepares high school students from around the world for academic excellence and success in their personal goals. Certified teachers provide individualized instruction and support for independent learning. Through a challenging college preparatory curriculum, KCPS harnesses the power of a flexible learning environment and educational technology to serve students who seek more than a traditional college prep school.

School Overview

Kaplan College Preparatory School is a private, online high school specializing in college preparatory education for students in grades 6–12. Programs are individually designed to support student's specific goals through a menu of more than 100 courses, including a full range of core curriculum, Advanced Placement, honors classes, electives and college prep courses.

Students aspiring to attend a competitive university benefit from our rich and demanding curriculum, one-on-one instruction by certified teachers, dedicated Academic Advisors, College Counselors, and full technical support. Through KCPS, students are able to gain a private-school education with the flexibility of learning virtually anywhere, at any time.

KCPS is operated by Kaplan Virtual Education, which is a subsidiary of Kaplan, Inc., and part of its Kaplan Higher Education business unit - a Washington Post Company. Kaplan College Preparatory School is regionally accredited by the Southern Association of Colleges and Schools (SACS) and nationally accredited by the Commission on International and Trans-Regional Accreditation (CITA).

Full-time, part-time, and summer school enrollments are accepted. Open enrollment is offered, meaning students may start their courses any time throughout the year. Honors and AP courses are offered in English, Mathematics, Science, and History.

Curriculum

The curriculum provides a variety of academic opportunities to meet the needs of students so that they can achieve academic success. All courses are highly interactive including custom graphics, audio, embedded video, animated learning activities that require students to use critical thinking skills. Students must analyze and evaluate information, as well as use data to solve problems. In addition, the learning platform provides students with continuous assessment and feedback from instructors through email, phone and instant messaging.

Education Advocate

Kaplan is committed to providing students the best educational experience possible. The Education Advocate is an independent resource dedicated to serving the needs of parents and students. The Education Advocate contacts parents when their child begins course work, and serves as a liaison between the parent and school administrators in an effort to identify and resolve any issues. Parents who have questions, concerns or feedback about any aspect of Kaplan's program, including curriculum, teachers, or academic advisement, have a direct contact person who can work with them to determine a resolution and ensure the student's success.

Benefits of Learning with Kaplan

Kaplan has been in the business of education for 70 years and has earned a reputation of being one of the world's leading providers of educational services. KCPS students benefit from Kaplan's deep experience in first-rate curriculum, individualized instruction, college coaching, and test prep.

Postsecondary School Information

Total Class Statistics	2008
Four-Year College	79%
Athletic / Talent Careers	18%
Undecided	3%

The following is a partial list of institutions to which graduates have been accepted:

Arizona State University	University of Florida
